

DEANERY

Design by
Eric Jourdan

Description

A light in the typical 'Jourdan' style, a modern classic with outlined shape. A tube with a swollen curve to the base, a real design exercise, with particular care taken in the treatment of the curve. This light came into being at the same time as the OKURA seating and one can note the same lines here as those of the rear of the armchair. They share the same typology.

Chromed base Ø 35 cm. Satin-finish mouth-blown glass shade. Grey textile cable. Black foot switch. 15W E27 LED globe bulb Ø 12 cm. Colour temperature 2,700 K (warm white).

THIS LIGHT IS SOLD WITH AN ENERGY CLASS A+ BULB.

IT IS COMPATIBLE WITH BULBS FROM ENERGY CLASSES A++ TO E.
